

NETTOCLAR RAPID

Stone Crystallization

- ▲ Brilliant shine effect
- ▲ Extremely resistant resulting surface
- ▲ Low proneness to re-soiling
- ▲ No traffic marks
- ▲ Easier daily maintenance cleaning

APPLICATION AREA

Renovation product for all marble and lime stone floorings e.g. marble, travertine and terrazzo.

DIRECTIONS

Nettoclar Rapid is a ready to use product.

Pre-conditioning: Before crystallization, heavy-duty cleaning is necessary with general floor cleaner. Then rinse well and wait until completely dry.

Crystallization:

Always use **Nettoclar Rapid** in its concentrated form. Spray **Nettoclar Rapid** equally, in sections of 2-4 m² each over the flooring. Use a low speed single disc machine with a steel wool pad and until the required shine has been reached. The final result is achieved when the resistance of the machine is tangible.

Immediately remove steel wool residue with a broom or dry mop.

Post treatment: In high traffic areas, a post treatment should be applied. Polishing and coating is not advisable.

Storage

Do not store above 40°C. Store in a frost-free place.
pH value 2,15 (conc.)

Safety Reminder:

Before using this or any other product, make sure your employees read and understand the product label and Material Safety Data Sheet.

For emergency medical information call Ecolab: 001 1 651 222-5352

Consult your Ecolab Representative for specific use instructions and recommended dispensing equipment. For cautionary and first aid information, please refer to the Safety Data Sheet (SDS) or product label.
